

Lattice Wall Pools

With over 39 years experience in manufacturing PVC pools for the South African market, you can trust the high quality and extensive after-sales service Seagull Industries provides with every pool purchased.

All our above-ground pools are made from high quality outdoor formulation PVC with a fully galvanised frame for your peace of mind. Our pools range in size from 198cm right up to our latest model which measures 5 metres in diameter. Each pool comes with a detailed yet simplified installation manual, so for some of our models it could take less than an hour to be up and ready to enjoy!

In addition, Seagull Industries also stocks a range of optional accessories such as pool covers, automatic pumps, maintenance kits, pool ladders, etc.

- Long lasting, sturdy galvanised steel frame designed to last for many years
- Replaceable liner - should your liner be damaged beyond repair, you can simply replace it with a new liner at a much reduced cost

Skimmer 2-in-1

- The Skimmer is a 2-in-1 product since it dispenses chemicals (chlorine, acid, etc) and also acts as a surface skimmer to effectively trap debris such as leaves, etc.
- All this without affecting the natural flow of your pool, which incidentally, no other surface skimmer on the market can claim!
